

I. Foundation & Most Critical Clinical Basics

1. Different Vital Signs – Adult & Baby
2. Pain Scale
3. Pulse Sites
4. Medical Abbreviations
5. Conversions – Volume, Weight, Temperature
6. Formulas (Clinical & Dosage Formulas)
7. Regular / Ideal Dosage
8. Medication Rights – 10 Rights of Medication Administration
9. Routes of Medication Administration
10. Normal Laboratory Values (Adult & Pediatric)

II. Injections & Medication Procedures

1. Needle Gauges / Colors / Functions
2. Injection Sites (IM, Subcutaneous, Intradermal)
3. Needle Elevations for Injection Sites
4. Insulin Types & Onset-Peak-Duration
5. Hypoglycemia / Hyperglycemia Signs & Interventions

III. Patient Positioning & Basic Nursing Care

1. Different Positions (Fowler's, Semi-Fowler's, Supine, Prone, Lateral, Trendelenburg, Reverse Trendelenburg)
2. Bed Elevations – Semi/High Fowler's
3. Trash Bin Colors – Waste Segregation (PH Standard)
4. Auscultating Lung Sounds
5. Bowel Sounds Assessment
6. Wound Classification & Dressing Types
7. 4 Stages of Pressure Ulcer
8. Braden Scale for Pressure Ulcer Risk

IV. Oxygenation & Respiratory Essentials

1. Oxygen Delivery Methods & Devices
2. Isolation Precautions (Contact, Droplet, Airborne)
3. TB-DOTS Protocol
4. Respiratory Anatomy Illustration
5. Glasgow Coma Scale (GCS)

V. IV Therapy & Blood-Related Skills

1. Different IV Fluids – Isotonic, Hypotonic, Hypertonic
2. IV Complications
3. Blood Collection Tubes – Colors & Functions
4. Blood Type Compatibility
5. Emergency Drug Box (ER/ICU Common Drugs)

VI. Cardiac & Critical Care Assessment

1. ECG Placement
2. 12-Lead ECG Basic Interpretation
3. Heart Sounds (S1/S2, Murmurs Basics)
4. Stroke Assessment (FAST, NIHSS Basics)
5. Ventilator Alarms – Meaning & Immediate Actions
6. ABG Interpretation
7. AV Nodes / Cardiac Conduction System
8. Blood Flow – Adult

VII. Maternal & Newborn

1. APGAR Score
2. Infant Reflexes
3. Fetal Position
4. Fetal Circulation
5. Infant Poop Color Wheel
6. Immunization Schedules
7. Postpartum Physical Assessment
8. Magnesium Sulfate Facts
9. 4 Stages of Labor

VIII. Ortho, Emergency & Surgery-Related

1. Types of Fracture
2. Rule of 9s & Parkland Burn Formula

IX. Anatomy Illustrations

1. Skeletal System Anatomy
2. Muscular Anatomy Illustration
3. Cranial Nerves

X. Professional Practice & Ethics

1. Nurses' Prayer
2. Nightingale's Pledge

3. Maslow's Hierarchy of Needs
